Get Rue, Wormwood, and
 Gall, to strew your Floors, to
 destroy Fleas. At the Full Moon,
 gather Flowers and Seeds; dry
 your Flowers rather in the Shade
 than in the Sun, which too much
 exaleth their Virtue: But, to
 avoid corruption, let the Sun's
 Heat a little visit them.

Beware of violent Heat, and
 sudden Cold, which are the great
 Distempers of this Month, and
 produce pestilential Diseases.
 Forbear superfluous Drinking;
 but eat heartily. Use cold Herbs
 and Meats; abstain from Physick.
 Now the Rivers are more whol-
 some than the Baths. In Time of
 Pestilence, keep your Chamber-
 Windows shut till the Sun have
 Force of shining. Perfume your
 Chamber every Morning with
 Tar, upon a Chafing-dish of
 Coals. Use *Cordus Benedictus*
 boiled, and drink it fasting.

The best Physick this Month is good Exercise, warm and wholesome Meat and Drink: But if any Distemper afflict the Body, finish your Physick this Month, and so rest till *March*, unless Necessity urge. Use good Meat and wholesome Drinks to nourish the Blood. Be sure to go dry of your Feet: For if not, (unless it be those always used to it) be certain to be troubled with Rheums and Cold, and other Inconveniencies attending.
